RESPONSE

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In response to the Examiner's requirement for restriction, set forth in the Office Action dated June 17, 2003, Applicants elect the subject matter of Group I (claims 1-8) for prosecution in this application. That election is made with traverse and the Examiner is urged to reconsider the requirement for restriction and to rejoin at least the subject matter of Groups I and II.

It is submitted that no undue burden would be placed on the Examiner from the standpoint of searching if Groups I and II were rejoined as the two Groups are classed and subclassed identically.

KUMAR et al  
Serial No.: 09/780,612  
July 17, 2003

Further, to require restriction between the subject matter of Group I and that of Group II denies Applicants the opportunity to prosecute generic claim 1. Applicants have disclosed that inhibition of the interaction between integrin receptor and extracellular matrix provides a means for treating diseases of the eye characterized by elevated intraocular pressure. Applicants are entitled to receive an Action on the merits of a claim drawn to such a method. Given the present restriction requirement, Applicants are denied that right.

In view of the above, the Examiner is urged to reconsider the restriction requirement.

Respectfully submitted,

NIXON & VANDERHYE, P.C.
